Recalls
Recall # R0124**Recall Date:** 12/21/2016**Secondary Hood Latch Replacement****Recall Description:**

On certain vehicles, the secondary hood latch could corrode, and may result in the mechanical binding of the latch. This could cause the secondary hood latch to remain in the open position when the hood is closed. If the vehicle were to be driven with the primary hood latch disengaged, or primary hood latch is released while driving, there is a potential that the secondary hood latch may not hold the hood closed while the vehicle is in motion. If this were to occur, it could compromise the driver's ability to see the road and its users, as well as cause damage to the windshield.

This recall was open as of the date/time that this report was generated. For more information, or to find out if the recall has been closed, please contact HYUNDAI or visit Hyundai's website.

Recall # R0164**Recall Date:** 6/8/2020**Anti-lock Brake System (ABS)****Recall Description:**

Issue: On certain vehicles equipped with an anti-lock brake system (ABS), moisture can enter the ABS control module and cause a short circuit. Safety Risk: A short circuit could create a fire risk. This can happen even if the vehicle is parked. Corrective Actions: Hyundai will notify owners by mail and instruct you to take your vehicle to a dealer to install a relay to power off the ABS control module when the vehicle is turned off.

This recall was open as of the date/time that this report was generated. For more information, or to find out if the recall has been closed, please contact HYUNDAI or visit Hyundai's website.
